and dealer profitability!**

## HawkEye Elite® Alignment Systems

Hunter's HawkEye Elite® systems elevate alignment service to a new level of productivity. Patented QuickGrip™ adaptors and three-dimensional targets work with high-resolution camera sensors and the most powerful alignment software in the industry to help shops take full advantage of one of the most profitable auto services.

### EQUIPMENT SHOWN:

700-WA445  
Console

**NADA \$14,790.00**

Dealer Price \$15,948.00

700-HE421FC  
Sensors

**NADA \$11,880.00**

Dealer Price \$12,809.00

### FEATURES:

- Four high-resolution cameras provide instant adjustment updates on-screen.
- 3D modeling of wheel position provides the most accurate alignment measurements.
- Exclusive QuickComp™ compensates all four wheels and captures initial measurements in one roll-forward motion.
- Detailed color printouts help explain needed repairs and document completed work.
- Present **complete** measurements in 90 seconds to help sell more work.
- Digital library of instructional videos, vehicle-specific photos and illustrations educate technicians and customers alike.
- Fully Integrated Alignment (FIA) links the console, sensors and lift into one highly efficient alignment system to minimize steps and streamline the alignment process.
- Award-winning CodeLink steering system reset device and a VIN bar code scanner come standard.
- Choose from a variety of consoles and sensor configurations to fit your shop space.

### SET UP IN SECONDS INSTEAD OF MINUTES WITH QUICKGRIP ADAPTORS AND THREE-DIMENSIONAL TARGETS...

- Adjusts easily to various wheel sizes.
- Simple, one-touch lock lever – no more knob twisting.
- Grips tire tread – no metal-to-metal contact.
- No electronics at the wheel.
- Easy-to-handle lightweight, compact design.
- Shop-tough polymer construction.
- Covers assemblies up to 37 inches in diameter.

## Fully Integrated Alignment Lift Options

### NEW! RX16 Scissor Lift

Hunter's new RX16 scissor lift provides an impressive 16,000-lb. lifting capacity, yet requires less floor space than lower-capacity models. With optional timesaving features, the RX16 is the most versatile and productive alignment lift on the market.

**NADA SPECIAL!**  
**\$32,722<sup>00</sup>**  
#700-RX16T-IS  
Dealer Price \$35,278.00

- Power-Up System offers the ground clearance advantages of a standard capacity lift to handle most vehicles, but can also "power up" to service heavier vehicles up to 16,000 lbs.
- Two-stage motor speeds raise and lowering times by 40% when servicing light vehicles and automatically slows descent in last several inches to ensure a soft landing.
- Best-in-class drive-on height of only 9 inches for surface-mount installations.
- Space-saving, flush-mount installation sets the runways flat to the floor when fully lowered.
- 26-inch-wide runways allow easy positioning of extra-wide vehicles.
- Precision-fit safety locks ensure alignment level at 15 lock positions.
- Class-leading maximum height of 76 inches for surface-mount installations.
- Two 9,000-lb. capacity swing air jacks come standard.
- FIA equipped on select models.
- Optional PowerSlide® auto-locking turnplates and slipplates.
- Optional Inflation Station integrated tire inflation system.
- Optional AlignLights runway lighting system.
- 10,000- and 12,000-lb. capacity models also available.

### L441 Four-Post Lift

**NADA SPECIAL!**  
**\$21,432<sup>00</sup>**  
#700-L441JTGM  
Dealer Price \$23,105.00

### FEATURES:

- Massive 18,000-lb. lifting capacity.
- Widest runways and most powerful motor of any comparable four-post lift on the market.
- FIA equipped on select models.
- Optional PowerSlide auto-locking turnplates and slipplates.
- Optional Inflation Station hose reels.
- Optional AlignLights under-vehicle lighting system.

**HUNTER**  
Engineering Company

Hunter has additional alignment consoles, sensors and lifts available. Contact your local GMDE representative for more information.

## Ensure a Smooth Ride With Hunter's Road Force® GSP9700 The ONLY balancer approved by GM

### GM Road Force® GSP9700

The GM Road Force® machine offers exceptional capabilities beyond traditional balancing and features specially designed software and an integrated database customized for service of GM vehicles.

**NADA SPECIAL!**  
**\$13,056<sup>00</sup>**  
#700-RF13GM  
Dealer Price \$14,077.00

#### ROAD FORCE FEATURES:

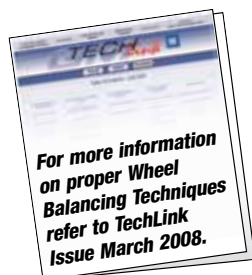

- The Road Force roller applies up to 1,250 pounds of pressure against the wheel assembly to detect non-balance-related issues. Unlike non-contact measurement, the roller samples the entire footprint of the tire, including the sidewall's contribution to ride quality.
- Two balance modes provide customized service for GM vehicles and standard service for non-GM vehicles.
- Integrated GM database presents vehicle-specific service information on-screen including proper adaptor and flange plate usage, tire specs and GM TSBs related to balancing.
- StraightTrak® LFM (Lateral Force Measurement) assesses the lateral forces in tires that cause pulls and drifts and provides corrective measures to minimize, offset or eliminate the problem.
- The ForceMatching® procedure finds the stiffest area of a tire's sidewall and the lowest spot on a rim to be marked and matched to cancel vibration caused by radial force variation.
- TranzSaver™ compares tire circumferences as specified by OEs to prevent damage to AWD vehicles.

- SmartWeight® balancing technology minimizes correction weight usage and maximizes productivity by reducing wheel weight costs by 30% to 40% and speeding service time with more single-spin balances.
- TPMSpecs™ provides vehicle-specific TPMS information, including sensor type, tools needed and reset procedures, on-screen in an easy-to-understand format.
- The HammerHead™ TDC and BDC weight placement lasers guide the operator to the precise top-dead-center and bottom-dead-center locations for weight placement. The HammerHead TDC laser is an optional feature and the BDC laser is standard.
- The CenteringCheck® feature ensures a mounted wheel is properly centered to ensure the most accurate balance.
- Automatic Weight Mode Detection eliminates the need for the technician to select balance modes, reducing service time and possible entry errors.
- The optional, integrated wheel lift allows a single technician to easily mount and center heavy wheel assemblies, which helps prevent potential injuries and fatigue.
- New balancer software supports the use of a bar code scanner to instantly access TPMS information by simply scanning the VIN. (Bar code scanner sold separately.)

#### PRICE DOES NOT INCLUDE MOUNTING ADAPTERS. ADAPTERS SOLD SEPARATELY.

Hunter has additional wheel balancers and accessories available. Contact your local GMDE representative for more information.

**HUNTER**  
Engineering Company

Hunter has additional wheel balancers available. Contact your local GMDE representative for more information.

## Hunter Has the Perfect Tire Changer to Fit Your Service Profile

### Auto34 Tire Changer

Hunter's Auto34 leverless tire changer includes automated functions and unique design elements to service the toughest wheel combinations with effortless operation.

#### FEATURES:

- The center-clamping wheel support accommodates rims up to 34 inches and adjusts to three clamping heights.
- The self-inserting, ultra-thin tool head safely mounts and demounts tires in one fluid motion, eliminating the need for bead levers.
- The powerful motor exerts over 850 foot-pounds of torque to service even the most stubborn tires beads.
- Bead-loosening rollers gently roll the bead from the rim, yet are strong enough to safely hold the tire stationary to complete match-mounting procedures.
- Only three switches and one foot pedal control virtually all tire changing operations.
- Optional pneumatic wheel lift available.

**NADA SPECIAL!**  
**\$18,355<sup>00</sup>**  
#700-TCA34W  
Dealer Price \$19,789.00

### TCX575 Tire Changer

The TCX575 leverless tire changer handles a wide variety of wheels with safe, simple operation.

#### FEATURES:

- The twin-cylinder tabletop clamping system handles 12- to 30-inch wheels and adjusts to two work positions.
- The patented Bead Press System includes multiple pressing arms and a bottom roller disc to aid in clamping, lubricating, demounting and mounting difficult wheel assemblies.
- The leverless tool head eliminates potential damage to beads and rims.
- The locking lower arm helps demount heavy tires and hold tires in place to complete match-mounting service.
- The powerful motor and unique two-speed drive system operates at a low speed with increased torque to prevent damage to wheels and tire beads when servicing tough combinations.
- Optional pneumatic wheel lift available.

**NADA SPECIAL!**  
**\$10,415<sup>00</sup>**  
#700-TCX575  
Dealer Price \$11,502.00

### TC3700 Tire Changer

The TC3700 tire changer features work in unison to make easy work of difficult wheel assemblies.

#### FEATURES:

- The center support provides the flexibility to mount wheels ranging from 10 to 28 inches with the same ease.
- A new optional Bead Press Arm pushes and holds stiff sidewalls in the drop-center position to ease demounting and mounting by greatly reducing stress to the bead (standard on TC3715E and TC3715EW models).
- The variable-speed drive system operates at a low speed with increased torque to prevent damage to wheels and tire beads.
- The floating articulated mounting arm and polymer mount head follow the rim closely, reducing stress on the bead.
- The hydraulic bead-loosening rollers gently roll tires off or on rims. With the simple control, a technician can safely hold the tire while spinning the wheel to complete match-mounting.
- Optional pneumatic wheel lift available.

**NADA SPECIAL!**  
**\$12,629<sup>00</sup>**  
#700-TC3715EW  
Dealer Price \$13,616.00

## V3D<sup>1</sup> X-CEL and V3D<sup>2</sup> X-CEL Imaging Alignment Systems

The V3D<sup>1</sup> X-CEL and V3D<sup>2</sup> X-CEL imaging alignment systems leverage patented imaging technology to provide accurate, real-time measurements that reduce setup and measurement times and generate serious productivity benefits.

### FEATURES:

- Ergonomic: Measures at multiple lift heights.
- Easy-to-Use: Software guides the technician step-by-step through the alignment process and shows progress in real-time.
- Fast: Setup to readings in under 2 minutes.
- Optional VIN Code Reader allows the technician to scan the Vehicle Identification Number and automatically input it into the aligner.
- Optional Drive-On Camera Aid eliminates the need for assistance with positioning the vehicle on the lift.
- EZ-Link™\* software alerts the technician of OEM service and maintenance procedures related to Electronic Stability Control and Electric Power Steering Systems.
- Optional EZ-Stream™\* hardware communicates with the vehicle's computer and aids the technician with service of on-board computer data relative to computerized steering systems.
- For more advanced capabilities including measurements of Scrub Radius\*, Rolling Radius\* and Caster Trail\*, consider the V3D<sup>2</sup> X-CEL.

## EHP System II-E Swing-Arm Tire Changer

The EHP System II-E tire changer can handle a wide range of wheels available today, ranging from OEM to aftermarket applications – increasing your shop's flexibility and productivity. The EHP System II-E features mechanical locking of the vertical wheel offset and a large-diameter horizontal offset knob, providing maximum cosmetic safety for expensive wheels and significantly reducing risk of wheel or tire damage. The swing-arm allows the technician to move the mount/demount arm clear of the turntable for maximum clearance while placing wheel and tire assemblies in the mount/demount clamping position.

- No-wheel-contact demount head eliminates scratched finishes for increased customer satisfaction.
- Optional Safety Restraint Arm protects operator in case of tire explosion.
- Tire pressure limiter valve to protect from over-inflation.

**NADA SPECIAL!**

**Turn Out a Top-Quality  
Brake Job with this  
On-Car Brake Lathe**

GM dealers looking to order a new or additional On-Car Brake Lathe will now order the new 38-PFM92-GYX/5 – the latest complete brake repair system approved by GMDE. This model replaces the discontinued 38-PFM90.5 as the required tool that must be used to perform warranty brake rotor surfacing.

**38-PFM92-GYX/5****Base Lathe Package**

Includes: New trolley, parallel arm cutting head, on-board computer system with GYR firmware and USB port, PFM9.2 lathe, five-adapter package, set-up and training.

The new 38-PFM92-GYX uses the standard PFM9.2 body with many of the same features as the essential 38-PFM90.5. New product design provides for greater service efficiencies.

**Best-In-Class Lathes to Deliver  
Improved Braking Performance  
for Your Customers!**

**NADA SPECIAL!**

## The New GM A/C Service Center

The GM CoolTech A/C Service Center contains the latest technology that meets the new stringent SAE standards for recovering, recycling and recharging R-134A refrigerant from a vehicle's air conditioning system.

The GM CoolTech combines simple operation with superior accuracy allowing technicians to recover, vacuum, leak test, and charge with the simple push of a button.

- Built-in vehicle system and component flushing capability.
- Automatic menu selectable functionality to clear oil from system.
- Vacuum leak test.
- Automatic refrigerant refill and air purge.
- Refrigerant charging.
- Movable control panel allowing for easy storage.
- Recovers 20% more refrigerant.
- Charge Accuracy  $\pm 1/2$  ounce.
- **Fully compliant with SAE J-2788 standard.**

**New SAE Specifications!**  
Please refer to service document #1993373 for information!

### Specifications

Voltage.....	220-240V 50/60Hz
Refrigerant Container On-board.....	14 kg vessel (source tank not included)
Operating Range.....	(11° to 49°C) 50° to 120°F
Recycling Filter-Drier.....	43 cu. in. spin-on type
Pump Free Air Displacement.....	(35 L/min) 1.5 cfm
Dimensions.....	(127 cm x 86.4 cm x 58.4 cm) 44" H x 34" W x 23" D
Shipping Weight.....	(106.6 kg) 235 lbs.

### Fully automatic function lets you recover, vacuum, leak test, charge, and then walk away.

Combines simple operation with superior accuracy. Recovers, recycles, evacuates, leak tests, and recharges R-134a quickly and accurately. Automatic operation means less attention is needed!

**Automatic Function** – With this new option, you can program the unit to recover, vacuum, leak test, charge, and then walk away without having to operate panel valves.

**Vacuum Leak Test** – Will monitor the vacuum level after an evacuation, and inform the technician of a possible leak in the vehicle's A/C system.

**Automatic Refrigerant Refill** – With this latest advance, you never have to stop in the middle of a job to change refrigerant tanks. The unit maintains a user selectable amount of refrigerant in an internal vessel, and signals when it's time to change the supply tank, so no monitoring is required.

**Automatic Air Purge** – Eliminates damaging air without any monitoring of gauges or opening of valves.

**Automatic Oil Drain** – The unit automatically drains system oil captured during recovery, and the display reminds you to empty the bottle. Graduations on the container clearly show you how much oil needs to be replaced.

**Refrigerant Charging** – Has never been this easy. Select a charge mode from either the high side, low side, or both. Accuracy features eliminate guesswork!

**Refrigerant Management Systems** – New and improved, system displays refrigerant use and monitors remaining filter life. Prompts appear when 1/3 of filter life remains.

**Vacuum Function** – Defaults to 15 minutes, but is programmable up to 99 minutes. Remaining vacuum time is displayed on the screen.

- Quickly and efficiently assess the condition of the battery.

**Power Supply Mode**

- Maintains the battery state-of-charge during vehicle reflash programming and extensive service work.

**Jump-start Mode**

- 250 amp automated jump-start routine.

**Manual Mode**

- User-defined charging parameters.

**Maximize Service Efficiency**

- Recover batteries quickly & eliminate wasted time charging bad batteries.
- Quickly service every vehicle.

**Improve Customer Satisfaction**

- Reduce and eliminate no-start situations.
- Quickly fix battery problems.

**Increase Your Bottom Line**

- Eliminate costly replacement of good batteries.
- Free technicians for more profitable tasks.

**MIDTRONICS****Battery Charger/Maintainer**

Midtronics PSC charger line is designed to provide clean power during flash programming (< 50 mV rms), while supporting loads and charging the vehicle's battery. This ensures uninterrupted flash reprogramming of the customer's vehicle and the battery will be returned with a higher state of charge.

**Features:**

- Simple to use, attach the cables to the battery and plug it in.
- Fully regulated DC output prevents overcharging of battery while charging in vehicle (13.6 vdc max.).
- Works with 12volt Flooded Lead Acid and AGM (Absorbed Glass Mat) batteries.
- Switch-mode design reduces heat build up in charger.
- Reverse battery polarity protection for added safety.
- Quiet, small, and compact for portability.
- High quality, detachable cables for easy field service.
- 30 Amp output with PSC-300 and 55 Amp output with PSC-550.
- Charge from inside the A103 carrying case for added protection.
- Can be used to maintain vehicles in the showroom. Plug it in and forget it.

## MAINTENANCE &amp; REPAIR AND VEHICLE CARE

## SmartLift® In-Ground Lifts from Rotary Lift

With over 50,000 units in operation, a self contained and environmentally-friendly operation, this lift has become the preferred choice in new facility construction.

## FEATURES:

- The TRIO™ Smartlift features a low-profile yoke design and greater drive-thru clearance than other models.
- The new arm design has 18% more reach with a shorter arm!
- Multi-position adapters have finite adjustment, allowing pinpoint placement of adapter to lift point.
- Retains all features of previous generation Smartlifts, including total containment, ease of service, and optional Liquid Detection System™ (LDS).

Shown: Model 39-SL210W with optional accessories.

## 39-SL210W

10,000 lb. capacity, wide drive-thru in-ground lift with Trio arms and flip-up adapters

**NADA \$7,225.00**

Dealer Price \$7,821.00

## 39-SL210W-RA

10,000 lb. capacity, wide drive-thru in-ground lift with Trio arms and rubber adapters

**NADA \$7,225.00**

Dealer Price \$7,821.00

Dealer Price \$9,766.00

## 39-SL210-MP8\*

8,000 lb. capacity in-ground lift with moveable pads

**NADA \$7,225.00**

Dealer Price \$7,820.00

\*39-SL210-MP8 and 39-SL212 do not include Trio arms.

## Introducing The World's Fastest Lift!

Shockwave™ Equipped Rotary Lifts will help you achieve your goals of greater technician productivity and higher profits. Designed for fast-service bays, these lifts are the fastest in the world. Only available from Rotary.

- Two times faster rise and descent than most lifts on the market. 25 seconds to full rise (most lifts are in the 45-60 second range) and 19 seconds to lower to the ground (most lifts are 35-50 seconds).
- DC power reduces operating costs. Uses two standard 12v car batteries, not included. Has built in charger that uses 110v, eliminating need for expensive 220v connection.
- Spotline™ motion-activated laser helps tech center vehicle in the bay on the first try, saving time spent repositioning the vehicle.
- Multiple options for engaging the vehicle. You pick.
- Available for 2-post surface or in-ground lifts.

Shown: 39-SPOA7-HY-SE 7,000 lb. capacity asymmetric lift, arm/pad hybrid Shockwave™ Equipped

**Just Pull the Trigger and Weld!****CTR12000 Spot Welder**

CAR-O-LINER's CTR12000 fully automatic process-regulated, multiple function spot welding machine increases productivity and profits. Liquid cooled and designed for the repair of vehicle bodywork, particularly of components made of high or maximum strength and also coated or laminated steel panels.

**FEATURES:**

- Automatic recognition of total sheet thickness via Pulse-Sonar-System.
- Automatic recognition of material type (normal/high strength) via Virtual Generator.
- Automatic definition of weld nugget diameter via total energy input.
- Transformer C-spot welding gun in 10 kHz technology.
- Welding data documentation with the use of WinSpot QS-Software (available separately).
- High output currents up to 12 kA.
- High quality performance "spot by spot."
- Reproducible welding quality.
- Easily upgradable via USB port.

Automatic  
detection of material  
type and thickness.

## FACILITY SUPPORT

# Lista is your complete storage solutions provider for parts and service.

Your custom solution starts with Lista's tough, industrial-grade construction, supported by our lifetime warranty. And ends with exactly what you need.

**Service:**

- Configurable workbenches.
- Technician toolboxes with more cubic storage than the leading competitors.
- Overhead cabinets, including computer monitor storage.
- Hose reel cabinets, pump/lift control cabinets, mobile technician carts with storage garage, trash storage and more.
- Available in GM blue and multiple other colors.

**Parts:**

- Issue/transaction counters.
- High density drawer storage and heavy-duty shelf storage.
- Industrial shelving.

Call for free design assistance and quote.

## LISTA

making workspace work®

**Technician Series  
Toolboxes:**

- Multiple heights and widths available.
- Single, double and triple bank configurations.
- Choose from 33 standard configurations.
- 440 lb. drawer capacity.
- Available in multiple colors.

## WARRANTY ADMINISTRATION SOLUTIONS

**A cost effective alternative to administering warranty claims at your dealership.**

Trust jlwarranty's experienced team to administer your warranty claims. Our all-inclusive service strengthens your warranty operations from the assignment of labour operation codes to analyzing your warranty receivables schedule. We handle it all for a low, fixed rate with no contracts or start-up fees! Visit [gmdswarranty.com](http://gmdswarranty.com) for a Free warranty analysis!

[jlwarranty.com](http://jlwarranty.com)

**The most extensive package of warranty information, training, and support available.**

Stay up-to-date on pressing warranty topics with a monthly warranty newsletter. Interact with other warranty professionals in a community forum. Have all the quick-reference publications and support you need for warranty administration success. Visit [gmdswarranty.com](http://gmdswarranty.com) for a 2-month free trial!

[jlwarranty](http://jlwarranty.com)

**Enjoy self-paced warranty training videos at your convenience.**

This collection of instructional videos offer to-the-point, practical training for beginners as well as seasoned professionals. You'll learn warranty tips, policy/bulletin clarification, and step-by-step how-to's on several topics. Visit [gmdswarranty.com](http://gmdswarranty.com) to watch the first 45 seconds of all videos!

800.852.6298

**The best GM warranty training available coming to a city near you.**

This one-day workshop addresses the most important issues service agents face with their warranty claims. More effective than reading the policy manual cover to cover, this workshop clarifies how to effectively administer those policies in your warranty processes. Visit [gmdswarranty.com](http://gmdswarranty.com) for complete schedule!

OTC

AN SPX BRAND

## Service Jacks

### Features:

- Ergonomic handle for user comfort and easy mobility.
- CE marked — ASME/PALD tested.
- Polyamide wheels are superior to cast wheels due to their high mechanical strength and durability:
  - Demonstrate exceptional resistance to wear and tear.
  - Will not damage garage floors, do not rust and are quiet in operation.

## Champion Duplex Air Compressors

Duplex air compressors are for extra air delivery when you need it without wasted space. Duplex air compressor systems allow your application the flexibility of single operation, alternating between compressors, or duplex operation to meet high air demand.

### Duplex Air Compressor Features:

- Utilize 2 two-stage splash-lubricated compressor pumps.
- Mounted on a single horizontal receiver.
- Two mounted starters and one alternator.
- Two NEMA-rated electric motors.
- Two air-cooled After-Coolers.
- Vibration isolator pads.
- Automatic tank drain.
- Two low oil level monitors.

## Norco ½-Ton Transmissions Jacks

Designed for the removal, installation and transportation (in the lowered position) of transmissions and transfer cases on passenger cars, vans and light trucks that are raised by an in-ground or above-ground lift.

### GOOD

- Fully-adjustable universal saddle with hand-adjustable corner brackets and safety chain.
- Safety overload system prevents jack from being used beyond its rated capacity.
- Foot-operated pump and lowering pedals allow use of both hands to position and align saddle with transmission.
- Two-stage flash-chromed rams inhibit rust from entering hydraulic system.
- Wide base with four easy-rolling 4" diameter swivel ball bearing caster wheels provides stability and easy maneuvering.
- Polyurethane wheels provide protection for tile and epoxy floors.

311-72500E  
**NADA \$799.00**  
Dealer Price \$962.00

**BETTER**  
Same as the 311-72500E, plus a dual pump design that will raise loads up to 450 lbs. twice as fast.

311-72550B  
**NADA \$860.00**  
Dealer Price \$1,035.00

### BEST

- Air/hydraulic foot pump provides hands-free operation and easy, convenient lifting.
- Metered pump valve provides safe lowering of load.
- Fully-adjustable universal saddle with hand-adjustable corner brackets and safety chain.
- Safety overload system prevents jack from being used beyond its rated capacity.
- Two-stage flash-chromed rams inhibit rust from entering hydraulic system.
- Wide base with four easy-rolling 4" diameter polyurethane swivel ball bearing caster wheels (one is a locking caster wheel) provides stability and easy maneuvering.

## Curtis Toledo Ultra Pack Air Compressors

Curtis Toledo Ultra Pack compressors come as a complete ready to go package with all of the accessories needed for most shops. This includes automatic tank drains, radiator style air-cooled after cooler, oil level sight indicator, low oil shut down, tank vibration isolator pads and factory oil fill. In addition all Curtis Toledo reciprocating air compressors are made in the USA and come with a mounted and wired magnetic starter. Compressor pumps are cast iron. All units come with a five year warranty on the pump motor and tank. All other components are warranted for one full year from installation date. Start-Stop control, ASME safety valve, ASME air receiver, pressure gauge, intake filter-silencers, tank shut off valve, manual tank drain and totally enclosed belt guard are standard equipment on every compressor.

## Pressurized Evacuation Roughneck Waste Oil Drain

The Roughneck II™ Series drain is the fast, affordable way to capture used oil and transfer it into any bulk storage tank or drum using regular shop air.

- 19.25" diameter catch basin features an inlet filter screen and s-hooks for tools.
- "Splashguard" bowl design prevents splattering, speeds drainage.
- Fully adjustable bowl height from 47 to 74 inches.
- One touch operation. No ball valves required for evacuation of fluid.
- Roughneck outlet tube mounts securely into bulk used oil reservoir or can be dry-break mounted.
- Seven foot evacuation tube provides sight gauge for fluid level.
- Tank handle makes maneuvering easy.
- Heavy gauge, all-steel construction guarantees long life.
- Tip-resistant balanced design.
- Large diameter rear rubber wheels and non-marking wide front casters maneuver the toughest shop floors.

## FACILITY SUPPORT

## Eliminate Heating Bills with a Waste Oil Heating System

Energylogic provides advanced technology for waste-oil heating that is guaranteed professional grade and hassle-free.

Our waste oil heating systems are designed to be as reliable and functional as your conventional heating, yet without heating bills. Backed by world-class customer support through our national service network and factory technical support, we can customize your exact needs.

- Installed and maintained by a local Authorized Dealer.
- Maximum installation flexibility for a non-disruptive shop footprint.
- More standard features than any other brand, such as: on-board air compressor, stainless steel heat exchanger, patented metering pump and low fuel cut off.
- Industry's longest warranty: 3 year warranty on parts and 10 years on the heat exchanger.
- EPA-approved and UL-listed.

# Expert Service Equipment & Systems Planning...

## At No Cost to You!

### FOUR Easy Steps:

# 1

#### Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

# 2

#### Equipment & Systems Needs Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

# 3

#### Detailed Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment & systems budget.

# 4

#### Project Coordination & Support

Single point of contact for service equipment and installation.

### Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the GM-approved equipment—where to place it for the best usage and work flow throughout the shop and how to get it installed. **We are the experts!**

Call today to speak with an Equipment & Systems Planning Specialist!
