TOOL & EQUIPMENT PROGRAM

1-800-662-2001 • nissantechmate.com

1-TCA34W
\$19,114.00
Dealer Price \$19,789.00

Auto34 Tire Changer

Hunter's Auto34 leverless tire changer includes automated functions and unique design elements to service the toughest wheel combinations with effortless operation.

Features:

- The center-clamping wheel support accommodates rims up to 34 inches and adjusts to three clamping heights.
- The self-inserting, ultra-thin tool head safely mounts and demounts tires in one fluid motion, eliminating the need for bead levers.
- The powerful motor exerts over 850 foot-pounds of torque to service even the most stubborn tires beads.
- Bead-loosening rollers gently roll the bead from the rim, yet are strong enough to safely hold the tire stationary to complete match-mounting procedures.
- Only three switches and one foot pedal control virtually all tire changing operations.

1-TC3715EW
\$13,150.00
Dealer Price \$13,616.00

TC3700 Tire Changer

Hunter's TC3700 tire changer handles the world's toughest high-performance tires and wheels with simple and safe operation.

Features:

- The center support with Quick Clamp provides the flexibility to mount wheels up to 28" with the same ease.
- A new optional Bead Press Arm pushes and holds stiff sidewalls in the drop-center position to ease demounting and mounting by greatly reducing stress to the bead (standard on TC3715E and TC3715EW models).
- The floating articulated mounting arm and polymer mount head follow the rim closely, reducing stress on the bead.
- The bead-loosening roller system safely helps demount and mount tires and complete match-mounting procedures.
- Optional pneumatic wheel lift available.

Expanded Wheel Range!

1-TCX515E
\$5,808.00
Dealer Price \$6,159.00

TCX515 Tire Changer

Hunter's TCX515 tire changer combines a traditional design with advanced capabilities to provide superior service with simple operation.

Features:

- The twin-cylinder tabletop clamping system handles 6- to 26-inch wheels.
- The standard bead press arm helps clamp, demount and mount difficult wheel assemblies.
- The familiar swing-arm design locks rim diameter for same-sized wheels.
- The improved motor has increased torque over previous models and the fastest speed in its class.
- Includes both steel and polymer mount heads.

1-BL505D-AB shown with optional HunterPro Elite cone kit and storage drawer.

Hunter BL505 Combination Brake Lathes

The Hunter BL505 brake lathe features a unique design that allows the operator to change the setup from rotors to drums and vice versa with unprecedented ease and speed.

- A choice of optional HunterPro adapter kits are available to customize the lathe to match the service profile of your shop.
- An infinitely adjustable feed rate provides a dial-in fast rate for rapid material removal, very slow for final surface finish or any rate in between to perform one-cut passes.
- Three easy-to-access spindle speeds allow the correct speed for all size workpieces. No tools are required to change speeds.
- The optional Digi-Cal Auto Measurement displays depth of cut for rotors and drums and also measures thickness, drum diameter and total indicated runout of the workpiece.
- The optional Dust Containment System acts as an environmental enclosure that captures chips and iron dust particles that can become airborne.

Ensure a Smooth Ride with Hunter's Quick Check System and Road Force Touch®

TECH-MATE

TOOL & EQUIPMENT PROGRAM

1-800-662-2001 • nissantechmate.com

Boost Alignment Bay Traffic with Hunter's Quick Check System

✓ **Verify the need for alignment in under 60 seconds!**

✓ **Sell more service & increase alignment bay profits!**

Includes:

- Mobile Quick Check console
- Drive-thru HawkEye Elite sensor configuration
- QuickGrip adapters
- QuickGrip adapter extensions
- Three-Dimensional Targets
- Bar code scanner
- Mobile adaptor storage carts
- 24-inch widescreen LCD
- Color printer

1-WQ332DT
\$21,970.00
 Dealer Price \$22,747.00

Features:

- QuickGrip® adapters set up in seconds.
- QuickComp™ compensates wheels and captures measurements with one forward roll.
- High-resolution digital cameras measure angles with pinpoint accuracy.
- Bar code scanner instantly enters a vehicle into the system to recall specs.
- Easy-to-understand, color-coded printouts help explain needed service and gain more repair authorizations.
- Drive-thru and mobile sensor configurations available.

Superior Wheel Service at Your Fingertips

HUNTER
 Engineering Company

NEW! Road Force Touch® GSP9700

The Road Force Touch provides complete wheel diagnostics as fast as a traditional balance and features a touchscreen interface to simplify operation.

Road Force® roller mimics how a wheel performs under the load of a vehicle to find and solve hidden causes of vibration and vehicle pull.

Touchscreen interface simplifies operation and shortens the learning curve for new technicians.

Additional Features:

- Enhance your service by balancing a wheel and performing a Road Force® test in the same amount of time as a typical balance.
- ForceMatching® locates the stiffest area of a tire and the lowest spot on a rim to be marked and match-mounted to cancel radial-force vibration.
- StraightTrak® measures pull forces in tires and recommends wheel placement to cancel vehicle drift. **Now measures individual tire pulls!**
- SmartWeight® improves overall balancing results, saves over 30% on wheel weight costs, and boosts productivity through more efficient weight application
- eCal™ auto-calibration provides true "self-calibration" without any input from the operator.
- CenteringCheck® verifies proper wheel centering to eliminate set-up errors and ensure an accurate balance.
- TranzSaver™ displays assembly diameters to prevent costly damage to AWD transmissions from mismatched wheels.
- Integrated TPMS database provides vehicle-specific reset instructions on-screen.
- On-demand videos assist training and improve overall service.
- Laser-guided weight placement speeds service with a standard BDC laser and an optional HammerHead® TDC laser.
- New balancer shaft consists of a superior alloy to resist wear and sustain long-lasting service.
- Auto-Up Hood saves time by automatically lifting the hood for the operator.
- All Road Force Touch models include a 10-pc. collet set with convenient storage.
- Printer option provides informative documents to explain service.
- Access TPMS info instantly with optional VIN bar code scanner.
- Integrated wheel lift option available.
- AutoClamp option available.

1-RFT03 – Includes HammerHead laser, printer and wingnut clamp.

Shown with optional bar code scanner.

HawkEye Elite® Alignment Systems

Hunter's HawkEye Elite systems elevate alignment service to a new level of productivity. Patented QuickGrip adapters and three-dimensional targets work with high-resolution camera sensors and the most powerful alignment software in the industry to help shops take full advantage of one of the most profitable auto services.

Features:

- An extensive vehicle information database, vehicle-specific adjustment features, and over 30 years of specifications simplify alignment procedures for fast, accurate, and efficient service.
- Four high-resolution cameras capture measurements and register adjustments instantly on-screen.
- 3D modeling of wheel position provides the most accurate alignment measurements.
- Exclusive QuickComp™ compensates all four wheels and captures initial measurements with one forward roll.
- Detailed color printouts help explain needed repairs and document completed work.
- Digital library of instructional videos, vehicle-specific photos and illustrations educate technicians and customers alike.
- Fully Integrated Alignment (FIA) minimizes steps and streamlines the alignment process by automating manual tasks and simplifying procedures.
- Award-winning CodeLink steering system reset device and a VIN bar code scanner come standard.
- Choose from a variety of consoles and sensor configurations to fit your shop space.

HUNTER Engineering Company

Hunter has additional alignment lift racks, consoles, sensors and accessories available. Contact your local TECH-MATE Equipment Representative for more information.

Set up in seconds instead of minutes with QuickGrip Adaptors and Three-Dimensional Targets...

- Adjusts easily to various wheel sizes.
- Simple, one-touch lock lever – no knob twisting.
- Grips tire tread – no metal-to-metal contact.
- No electronics at the wheel.
- Lightweight, compact design.
- Shop-tough polymer construction.

Powerful and Productive RX16 Alignment Lift

1-RX16T-IS

\$34,075.00
Dealer Price \$35,278.00

1-RX16T-IS – Includes auto-locking slipplates and turnplates, inflation system, and FIA compatibility.

NEW! RX16 Scissor Lift

Hunter's RX16 scissor lift provides a massive 16,000-lb. lifting capacity, yet requires less floor space than lower-capacity models. With optional timesaving features, the RX16 is the most versatile and productive alignment lift on the market.

Features:

- Best-in-class drive-on height of only 9" and maximum lift height of 76" for surface-mount installations.
- Space-saving, flush-mount installation sets the runways flat to the floor when fully lowered. Flush-mount installs are available for all RX models.
- Two-stage motor speeds raise and lowering times by 40% when servicing light vehicles and automatically slows descent in the last several inches to ensure a soft landing.
- 26-inch-wide runways allow easy positioning of large vehicles.
- Safety locks ensure alignment level at 15 lock positions.
- Two 9,000-lb. capacity swing air jacks come standard.
- Optional Fully Integrated Alignment (FIA) minimizes steps and streamlines the alignment process by automating manual tasks and simplifying procedures.
- Optional productivity features include PowerSlide® auto-locking turnplates and slipplates, Inflation Station integrated tire inflation system, and AlignLights runway lighting system.
- 12,000- and 10,000-lb. capacity RX models are also available.

In-Ground and Surface Two-Post Lifts

2-Post Lifts

- Versymmetric® 2 Lifts in One™ design accommodates more vehicles than asymmetric-only turn column lifts.
- Maximum productivity with offset 3-stage arms for directSPOT™ capability.

Note: All Challenger 12,000 lb. capacity and higher 2-Post and Inground lifts include 67-10315 Stack Adapter Kit and 67-10318 Frame Engaging Adapters (REQUIRED when lifting a vehicle with frame construction). 15,000 lb. and 18,000 lb. capacity lifts also include 67-10317 Reducer Bushings.

67-CL10V3
10,000 lb. Versymmetric® 2-Post Lift with offset 3-stage front arms + 3-stage rear arms.

\$3,560.00

Dealer Price \$4,097.00

Also Available:

67-E10
10,000 lb. 2-Post Lift.

\$2,799.00

Dealer Price \$3,140.00

67-E12
12,000 lb. 2-Post Lift.

\$4,310.00

Dealer Price \$4,723.00

A surcharge of 3.2% will be added for shipping and handling.

Inground EnviroLift® with AquaVantage™

EnviroLift® with AquaVantage™

67-AV1020WV
10,000 lb. Inground EnviroLift with AquaVantage Technology and 3-stage front and rear arms.

\$9,276.00

Dealer Price \$10,037.00

- Patented technology runs on compressed air and tap water instead of electricity and oil.
- Large 8-1/4" double walled, anodized aluminum pistons.
- 80" rise height – extra head-room over traditional in-ground lifts.
- No electric motors, no high pressure cylinders.
- Fewer moving and replacement parts = less maintenance.

Also Available:

67-EV1020 NEW
10,000 lb. Conventional Inground with 3-stage front and rear arms.

\$6,660.00

Dealer Price \$7,435.00

67-EV1220

\$8,910.00

Dealer Price \$9,904.00

SmartLift® In-Ground Lifts from Rotary Lift

With over 50,000 units in operation, a self contained and environmentally-friendly operation, this lift has become the preferred choice in new facility construction.

Features:

- The TRIO™ Smartlift features a low-profile yoke design and greater drive-thru clearance than other models.
- The new arm design has 18% more reach with a shorter arm!
- Multi-position adapters have finite adjustment, allowing pinpoint placement of adapter to lift point.

- Retains all features of previous generation Smartlifts, including total containment, ease of service and optional Liquid Detection System™ (LDS).

THE NEW SMARTLIFT®

Shown: Model 39-SL210iW-RA with 3-stage arms and polymer RA, adapters - TRIO only available in 10,000 lb. capacity.

Models:

39-SL210W-RA
10,000 lb. capacity, wide drive-thru in-ground lift with Trio arms and rubber adapters

\$7,228.00

Dealer Price \$7,821.00

39-SL210iW-RA
10,000 lb. capacity, wide drive-thru in-ground lift with Trio arms, LDS and rubber adapters

\$7,528.00

Dealer Price \$8,145.00

39-SL210-MP8
8,000 lb. capacity in-ground lift with moveable pads (does not include TRIO arms).

\$7,228.00

Dealer Price \$7,820.00

Introducing the World's Fastest Lift!

Shockwave™ Equipped Rotary Lifts will help you achieve your goals of greater technician productivity and higher profits. Designed for fast-service bays, these lifts are the fastest in the world. Only available from Rotary.

Features:

- Two times faster rise and descent than most lifts on the market. 25 seconds to full rise (most lifts are in the 45-60 second range) and 19 seconds to lower to the ground (most lifts are 35-50 seconds).
- DC power reduces operating costs. Uses two standard 12v car batteries, not included. Has built-in charger that uses 110v, eliminating need for expensive 220v connection.
- Spotline™ motion-activated laser helps tech center vehicle in the bay on the first try, saving time spent repositioning the vehicle.
- Multiple options for engaging the vehicle. You pick.
- Available for 2-post surface or in-ground lifts.

Models:

39-SPOA10-RA-SW
10,000 lb. lift, flip-up adapters, DC power.

\$5,368.00

Dealer Price \$5,807.00

39-SPOA7-HY-SW
7,000 lb. lift, arms/pad, DC power.

\$6,070.00

Dealer Price \$6,570.00

39-SL210-MP8-SW
8,000 lb. in-ground lift, moveable pads, DC power.

\$8,656.00

Dealer Price \$9,364.00

39-SL210-RA-SW
10,000 lb. in-ground lift, rubber adapters, DC power.

\$8,656.00

Dealer Price \$9,364.00

Shown: 39-SPOA7-HY-SE, 7,000 lb. capacity asymmetric lift, arm/pad hybrid Shockwave™ Equipped.

A surcharge of 3.2% will be added for shipping and handling.

Electrical Diagnostics and On-Car Brake Lathe

TECH·MATE

TOOL & EQUIPMENT PROGRAM

1-800-662-2001 • nissantechmate.com

Give Your Customers Total Battery Service ... FAST!

This all-in-one portable battery diagnostic station offers intelligent, controlled, and rapid charging combined with battery state-of-health analysis.

Routine maintenance checks are performed quickly and efficiently by identifying batteries nearing the end of their useful life before they fail out on the road.

A required tool for Warranty Service on Nissan vehicles!

Features:

- **Diagnostic Charging Mode** – quickly and efficiently assesses the condition of the battery and charges the good ones.
- **Power Supply Mode** – maintains the battery state-of-charge during vehicle reflash programming.
- **Jump-Start Mode** – 250 amp automated jump start routing.
- Manual Mode.

Dealer Price \$3,657.00

Battery and Electrical Diagnostic Analyzer with Integrated Printer

165-EXP-800-NI
\$1,060.00
Dealer Price \$1,200.00

Easy to Use. Great Features:

- Tests 12 Volt batteries from 100 to 3,000 CCA – including AGM and Gel.
- Incorporates temperature measurement with deep-scan technology to improve accuracy and decisiveness across a wider range of batteries.
- Displays voltage, measured CCA, battery, starting, and charging system condition.
- Comprehensive charging system test including diode-ripple.
- SD memory card capable for record keeping, data transfer, and software upgrades.

PRO-CUT
ROTOR MATCHING SYSTEMS

PFM92-5DRO

38-PFM92-5DRO Base Lathe Package

Includes accessory kit and 5 adapters.

\$9,190.00
Dealer Price \$9,748.00

On-Car Brake Lathe

The PFM92-5DRO comes complete with Speed Lock cutting head. This feature allows the technician to shave up to a minute more off the already incredibly fast process time of Pro-Cut PFM lathes by eliminating the need for hand tools during set up. Sound easy? You bet! **In as little as 7 minutes per rotor, your techs will be matching and re-finishing rotors** with the highest degree of accuracy available today.

38-50-1200UPG

\$1,495.00
Dealer Price \$1,619.00

G2X / Upgrade

Upgrade your DRO lathe the "SMART" cutting head. G2X turns the lathe cutting head into a live micrometer with rotor thickness shown in inches or millimeters on the LED display.

- 1 LIVE ROTOR THICKNESS MEASURING
- 2 ALL NEW! – SMART CUTTING HEAD

38-50-1360

\$3,495.00
Dealer Price \$3,790.00

GYR / Upgrade

Scanner captures specs for each rotor while GYR application directs the technician through the brake job insuring that specs are met every time. Finished Brake job data is saved to the computer.

- 1 ROTOR SPECS FOR EVERY VIN
- 2 COMPUTER DIRECTED IN-SPEC REPAIR
- 3 INSTANT REPAIR REPORTS
- 4 ALL HISTORY STORED

G2X Upgrade Package includes 38-50-1200 cutting head, linear transducer, gpm module/computer board, and cables. GYR Upgrade Package includes the command center, touch screen tablet, scanner, vehicle vin and rotor data, & GYR application. **The GYR upgrade package REQUIRES the G2X upgrade package.**

Expert Service Equipment & Systems Planning...

At No Cost to You!

FOUR Easy Steps:

1

Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

2

Equipment & Systems Needs Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

3

Detailed Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment & systems budget.

4

Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the TECH-MATE-approved equipment—where to place it for the best usage and work flow throughout the shop and how to get it installed. **We are the experts!**

Call today to speak with an Equipment & Systems Planning Specialist!

1-800-662-2001

Let our experts make sure your facility:

- Accommodates Future Vehicles
- Provides Layout Efficiency
- Maximizes Shop Throughput

Special lease programs available for new facilities. Lease rates will vary. Please call for details.
