# The Balancer Preferred by Subaru!

## Ensure a Smooth Ride with the Subaru Road Force® GSP9700

1-RF03SUB

Hunter's Road Force® diagnostic system performs a simulated road test on the wheel assembly to quickly identify and diagnose tire/rim-related vibration and tire-pull problems.

### Packages Available:

#### Preferred Package

1-RF03SUB\*  
Includes HammerHead TDC laser, printer, side storage and wing nut clamp.

**\$12,250.00**

Dealer Price \$12,690.00

1-20-2386-1

Collets set with front storage.

**\$2,128.00**

Dealer Price \$2,261.00

#### Minimum Package

1-RF03SUB\*  
Includes HammerHead TDC laser, printer, side storage and wing nut clamp.

**\$12,250.00**

Dealer Price \$12,690.00

1-20-2153-1

Low taper cone set with trolley storage.

**\$1,570.00**

Dealer Price \$1,675.00

\*Alternative RF Options (may substitute for RF unit in Preferred or Minimum):

1-RF33SUB

Printer, TDC, wheel lift & auto clamp

**\$14,300.00**

Dealer Price \$14,810.00

1-RF23SUB

Printer, TDC & auto clamp

**\$12,966.00**

Dealer Price \$13,424.00

1-RF13SUB

Printer, TDC & wheel lift

**\$13,590.00**

Dealer Price \$14,076.00

### Road Force features:

- The Road Force roller applies up to 1,250 pounds of pressure against the wheel assembly to detect non-balance-related issues. Unlike non-contact measurement, the roller samples the entire footprint of the tire, including the sidewall's contribution to ride quality.
- StraightTrak® LFM (Lateral Force Measurement) assesses the lateral forces in tires that cause pulls and drifts and provides corrective measures to minimize, offset or eliminate the problem.
- The ForceMatching® procedure finds the stiffest area of a tire's sidewall and the lowest spot on a rim to be marked and matched to cancel vibration caused by radial force variation.
- TranzSaver™ compares tire circumferences as specified by OEs to prevent damage to AWD vehicles.
- SmartWeight® balancing technology minimizes correction weight usage and maximizes productivity by reducing wheel weight costs by 30% to 40% and speeding service time with more single-spin balances.
- TPMSpecs™ provides vehicle-specific TPMS information, including sensor type, tools needed and reset procedures, on-screen in an easy-to-understand format.
- The HammerHead™ TDC and BDC weight placement lasers guide the operator to the precise top-dead-center and bottom-dead-center locations for weight placement. The HammerHead TDC laser is an optional feature and the BDC laser is standard.
- The CenteringCheck® feature ensures a mounted wheel is properly centered to ensure the most accurate balance.
- Automatic Weight Mode Detection eliminates the need for the technician to select balance modes, reducing service time and possible entry errors.
- The optional, integrated wheel lift allows a single technician to easily mount and center heavy wheel assemblies, which helps prevent potential injuries and fatigue.
- New balancer software supports the use of a bar code scanner to instantly access TPMS information by simply scanning the VIN. (Bar code scanner sold separately.)

**HUNTER**  
Engineering Company

### Adapters sold separately.

Hunter has additional wheel balancers and accessories available. Contact your local Subaru representative for more information.

# Hunterize Your Subaru Dealership Today with the Most Advanced Service Equipment in the Industry!

## NEW! HawkEye Elite® Alignment Systems

Hunter's HawkEye Elite® systems elevate alignment service to a new level of productivity. Patented QuickGrip™ adaptors and three-dimensional targets work with high-resolution camera sensors and the most powerful alignment software in the industry to help shops take full advantage of one of the most profitable auto services.

### Equipment shown:

1-WA445  
Console

**\$15,400.00**

Dealer Price \$15,948.00

1-HE421FC  
Sensors

**\$12,370.00**

Dealer Price \$12,809.00

### Features:

- An extensive vehicle information database, vehicle-specific adjustment features, and over 30 years of specifications simplify alignment procedures for fast, accurate, and efficient service.
- Four high-resolution cameras capture measurements and register adjustments instantly on-screen.
- 3D modeling of wheel position provides the most accurate alignment measurements.
- Exclusive QuickComp™ compensates all four wheels and captures initial measurements with one forward roll.
- Detailed color printouts help explain needed repairs and document completed work.
- Digital library of instructional videos, vehicle-specific photos and illustrations educate technicians and customers alike.
- Fully Integrated Alignment (FIA) minimizes steps and streamlines the alignment process by automating manual tasks and simplifying procedures.
- Award-winning CodeLink steering system reset device and a VIN bar code scanner come standard.
- Choose from a variety of consoles and sensor configurations to fit your shop space.

### Set up in seconds instead of minutes with QuickGrip Adaptors and Three-Dimensional Targets...

- Adjusts easily to various wheel sizes.
- Simple, one-touch lock lever – no more knob twisting.
- Grips tire tread – no metal-to-metal contact.
- No electronics at the wheel.
- Easy-to-handle lightweight, compact design.
- Shop-tough polymer construction.
- Covers assemblies up to 37 inches in diameter.

**HUNTER**  
Engineering Company

1-RX10T-IS

**\$25,767.00**

Dealer Price \$26,676.00

## RX Scissor Lift

RX scissor lifts require minimum bay space, provide clear access to the vehicle and jacks, and offer many optional features to improve productivity. With a choice of runway lengths and lifting capacities, you can choose the perfect RX model to fit your shop space and service profile.

### Features:

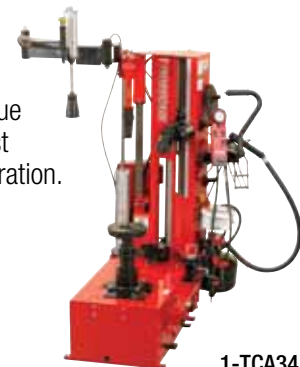

- Space-saving design.
- Available in 10,000- and 12,000-lb. capacities.
- Optional PowerSlide auto-locking turnplates and slipplates.
- Optional Inflation Station hose reels.
- Optional AlignLights under-vehicle lighting system.

## Auto34 Tire Changer

Hunter's Auto34 leverless tire changer includes automated functions and unique design elements to service the toughest wheel combinations with effortless operation.

### Features:

- The center-clamping wheel support accommodates rims up to 34 inches and adjusts to three clamping heights.
- The self-inserting, ultra-thin tool head safely mounts and demounts tires in one fluid motion, eliminating the need for bead levers.
- The powerful motor exerts over 850 foot-pounds of torque to service even the most stubborn tires beads.
- Bead-loosening rollers gently roll the bead from the rim, yet are strong enough to safely hold the tire stationary to complete match-mounting procedures.
- Only three switches and one foot pedal control virtually all tire changing operations.

# Alignment Check and Brake Lathes

## Boost Alignment Bay Traffic with Hunter's Quick Check System

- ✓ **Verify the need for alignment in under 60 seconds!**
- ✓ **Sell more service & increase alignment bay profits!**

### Features:

- QuickGrip® adapters set up in seconds.
- QuickComp™ compensates wheels and captures measurements with one forward roll.
- High-resolution digital cameras measure angles with pinpoint accuracy.
- Bar code scanner instantly enters a vehicle into the system to recall specs.
- Easy-to-understand, color-coded printouts help explain needed service and gain more repair authorizations.
- Drive-thru and mobile sensor configurations available.

### Includes:

- Mobile Quick Check console
- Drive-thru HawkEye Elite sensor configuration
- QuickGrip adapters
- QuickGrip adapter extensions
- Three-Dimensional Targets
- Bar code scanner
- Mobile adapter storage carts
- 24-inch widescreen LCD
- Color printer

# Serious Lift Capability for Every Bay and Every Service Job

## 2-Post Lifts

- Versymmetric 2 Lifts in One™ design accommodates more vehicles than asymmetric-only turn column lifts.
- Properly lifts all Subaru vehicles within rated capacity.
- Maximum productivity with offset 3-stage arms for directSPOT™ capability.

**67-CL10V3**  
10,000 lb. Versymmetric 2-Post Lift with offset 3-stage front arms + 3-stage rear arms  
**\$3,560.00**  
Dealer Price \$4,097.00

### Also Available:

**67-E10**  
10,000 lb. 2-Post Lift  
**\$2,799.00**  
Dealer Price \$3,140.00

**67-E12**  
12,000 lb. 2-Post Lift  
**\$4,310.00**  
Dealer Price \$4,723.00

## Inground EnviroLift® with AquaVantage™

- Patented technology runs on compressed air and tap water instead of electricity and oil.
- Large 8-1/4" double walled, anodized aluminum pistons.
- 80" rise height – extra head-room over traditional in ground lifts.
- No electric motors, no high pressure cylinders.
- Fewer moving and replacement parts = less maintenance.

**67-AV1020WV**  
10,000 lb. Inground EnviroLift with AquaVantage Technology and 3-stage front and rear arms  
**\$9,276.00**  
Dealer Price \$10,037.00

### Also Available:

**67-EV1020 NEW**  
10,000 lb. Conventional Inground with 3-stage front and rear arms.  
**\$6,660.00**  
Dealer Price \$7,435.00

**67-EV1220**  
12,000 lb. Inground.  
**\$8,910.00**  
Dealer Price \$9,904.00

A surcharge of 3.2% will be added for shipping and handling.

All Challenger 12,000 lb. capacity and higher 2-Post and Inground lifts include 67-10315 Stack Adapter Kit and 67-10318 Frame Engaging Adapters. 15,000 lb. and 18,000 lb. capacity lifts also include 67-10317 Reducer Bushings.

## SmartLift® In-Ground Lifts

With over 50,000 units in operation, a self contained and environmentally-friendly operation, this lift has become the preferred choice in new facility construction.

- The TRIO™ SmartLift features a low-profile yoke design and greater drive-thru clearance than other models.
- The new arm design has 18% more reach with a shorter arm!
- Multi-position adapters have finite adjustment, allowing pinpoint placement of adapter to lift point.
- Retains all features of previous generation SmartLifts, including total containment, ease of service, and optional Liquid Detection System™ (LDS).

**39-SL210W**  
10,000 lb. capacity, wide drive-thru in-ground lift with Trio arms and rubber adapters.  
**\$7,228.00**  
Dealer Price \$7,821.00

**39-SL210iW-RA**  
10,000 lb. capacity, wide drive-thru in-ground lift with Trio Arms, LDS and rubber adapters.  
**\$7,528.00**  
Dealer Price \$8,145.00

**39-SL210-MP8**  
8,000 lb. capacity in-ground lift with moveable pads (does not include TRIO arms).  
**\$7,228.00**  
Dealer Price \$7,820.00

## THE NEW SMARTLIFT® Rotary TRIO™

A surcharge of 3.2% will be added for shipping and handling.

Shown: Model 39-SL210iW-RA with optional accessories.

## Introducing The World's Fastest Lift!

Shockwave™ Equipped Rotary Lifts will help you achieve your goals of greater technician productivity and higher profits. Designed for fast-service bays, these lifts are the fastest in the world. Only available from Rotary.

- Two times faster rise and descent than most lifts on the market. 25 seconds to full rise (most lifts are in the 45-60 second range) and 19 seconds to lower to the ground (most lifts are 35-50 seconds).
- DC power reduces operating costs. Uses two standard 12v car batteries, not included. Has built in charger that uses 110v, eliminating need for expensive 220v connection.
- Spotline™ motion-activated laser helps tech center vehicle in the bay on the first try, saving time spent repositioning the vehicle.
- Multiple options for engaging the vehicle. You pick.
- Available for 2-post surface or in-ground lifts.

Shown: 39-SPOA7-HY-SW 7,000 lb. capacity asymmetric lift, arm/pad hybrid Shockwave™ Equipped

## Cool-Tech Air-Conditioning Service Machine

The Cool-Tech combines simple operation with superior accuracy. It recovers, recycles, evacuates, leak tests, and recharges R-134a quickly and accurately. Fully-automatic function lets you recover, vacuum, leak test, charge, and then walk away.

### Other Functions:

- Vacuum Leak Test
- Automatic Refrigerant Refill
- Automatic Air Purge
- Automatic Oil Drain
- Refrigerant Charging
- Refrigerant Management
- Vacuum Function

### Features:

- Recovers 20% More Refrigerant.
- Charge Accuracy  $\pm 1/2$  Ounce.
- Control panel offers flat storage feature when not in use.
- Database expansion slot (optional).
- Two large tool storage areas.
- Change between traditional and hybrid vehicle systems without fear of cross-contamination with improved oil injection.
- New 2X larger display is easier than ever to use.
- Built-in storage for extra filter.
- On-board storage for compressor oils.
- With Automated Air-Conditioning Service.
- Shipping Weight: 235 lbs.

# Expert Service Equipment & Systems Planning...

## At No Cost to You!

### FOUR Easy Steps:

# 1

#### Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

# 2

#### Equipment & Systems Needs Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

# 3

#### Detailed Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment & systems budget.

# 4

#### Project Coordination & Support

Single point of contact for service equipment and installation.

### Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the Subaru-approved equipment—where to place it for the best usage and work flow throughout the shop and how to get it installed. **We are the experts!**

Call today to speak with an Equipment & Systems Planning Specialist!

## 1-866-213-4690

### Let our experts make sure your facility:

- Accommodates Future Vehicles
- Provides Layout Efficiency
- Maximizes Shop Throughput

Special lease programs available for new facilities. Lease rates will vary. Please call for details.
