DIAGNOSTICS ON THE GO- **Tech2Win Diagnostic Solutions**

Maximize your Tech2Win software application with a rugged or semi rugged laptop PC. Service department ready, durable and reliable, the following laptop packages meet Techline guidelines for running the new Tech2Win software. Bundle it with the MDI, and you have the perfect solution for diagnosing GM Vehicles.

- Maximize Performance
- Minimize Technician Downtime
- Improve Productivity

MDI

(Included with all laptop bundled packages)

The MDI is a very powerful diagnostic tool, and will be a valuable asset for your service center for years to come. This high powered solution is the only way to communicate with new GM vehicle architectural platforms using the new Tech2Win software. The MDI offers faster programming speed, and in some cases is 20%-70% faster than the Tech 2.

To learn more about these bundled packages contact GMDE at **1-800-GM-Tools** or visit our website at **GMDEsolutions.com/services** to view all the latest promotions.

Panasonic CF-53 Toughbook

2.5GHz Intel i5 Processor, 4GB Ram, 320GB HD

Enhanced performance and versatility from the original semi-rugged laptop manufacturer. In 1998, Panasonic created the first semi-rugged computer. Now, Panasonic introduces the latest generation, the Panasonic Toughbook® 53. With a 14" HD LED display, the latest Intel® Core™ processors and an oversized multi touch touchpad, it performs like a desktop.
