

**August 02, 2018**

**Attention: Service and Parts Managers**

Beginning with May 1<sup>st</sup>, 2018 production, vehicles built in Japan switched from 21mm hex lug nuts to 17mm hex lug nuts. This does not affect MAZDA3 vehicles produced in Mexico (3MZ VIN) until September 2018.

Due to this change, a new Wheel Lock Master Key Set has been developed to service some mid-year 2018 vehicles and all 2019 and future vehicles.

**The changeover starts with the VINs listed below:**

<b>Vehicles</b>	<b>Model - VIN #</b>	<b>Start number</b>	
<b>CX-3</b>	JM1DKFC76K	0406293	~

Description: Wheel Lock Master Key Set (17mm)

Orders will begin shipping mid-August 2018

As a reminder, every accessory wheel lock set comes with its own key. It may be stored in the glove box or in the trunk. The Wheel Lock Master Key Set is for your convenience only. In the event the key is not found inside the vehicle, the technician would still be able to remove the wheel using the Master Key Set.

Follow the instructions below to register with McGard and place orders:
