DB-8000-XL Features

Air Operated Strut Compressor

• Tool Storage Tray

Adjustable Extra Strong Clamps
Single and double clamps are interchangeable to meet any position of the coils. Perfect grip every time.

• Front Safety Guard

Safety Microswitch
Prevents operating if guard is not correctly positioned.

Lower Support Plate
Supports strut when upper cap is unscrewed, prevents strut from falling. Allows for full use of both hands.

Twin Foot Pedals
For easy operation.
